We were approached by one of our clients, Stay Southpoint of Braamfontein, to participate in a social investment project for **Mandela Day 2014**. We agreed and got stuck in to refurbish the iron roof of Jordan GLC (Home for the Disabled) situate at No. 1 Raglan Street, Sydenham. On 17 and 18 July as well as the following Friday, 25 July, free of charge, we supplied the workers, rust inhibitor as well as consumables, whilst Stay Southpoint arranged the roof paint, to waterproof and paint the entire iron roof of this non profit organisation. These pictures show the condition of the roof prior, to the project, work-in-progress and appearance towards completion of project.
